INDICES to Vol. 20 (1979)

Contents of Volume 20 (1979) — DIAGNOSIS

Effect of ionic and non-ionic contrast media on red cell deformability in vitro
P. ASPELIN 1
Proteinuria following nephroangiography—IV—Comparison in dogs between ionic and non-ionic contrast media
S. HOLTÅS and L. TEJLER 13
Excretion of sodium and methylglucamine diatrizoate after longtime unilateral ureteric stasis in the rabbit
T. OWMAN 19
Volume of distribution of contrast media in blood
M. KORMANO 33
Metrizamide in high-dose urography
A. KOLBENSTVEDT, E. ANDREW, B. CHRISTOPHERSEN, K. GOLMAN, B. KVARNSTEIN and H. H. LIEN 39
Thrombosis following phlebography with ionic and non-ionic contrast media
U. ALBRECHTSSON and C. G. OLSSON 46
Endoscopic retrograde ductography in advanced pancreatitis—Comparison between ERCP, angiography, surgery and microscopy of the pancreas
T. SVAHN, N. GABRIELSSON, I. LJUNGDAHL and T. THORGEIRSSON 53
Radiologic appearance of fat in the interatrial septum of the heart
A. SZAMOSI and J. RAJS 61
Radiologic heart volume and subsequent mortality
D. CHRISTIE and A. GARDNER 65
Computer aided diagnosis of bone tumors
P. VIRTAMA, K. KATEVUO, P. MÄKELÄ and E. O. MÄKINEN 70
Facial bone scintigraphy—III—Effects of radiation therapy
H. F. BERGSTEDT and M. G. LIND 75
Arthrography in dislocation of the acromioclavicular joint
B. E. ZACHRISSON and A. EJESKÄR 81
Arthrosis of the ankle evaluated on films in weight-bearing position
M. BAUER, B. BERGSTRÖM and A. HEMBORG 88
Clinical significance of duodenal diverticula and value of hypotonic duodenography
P. J. LUKES, P. ROLNEY, A. E. NILSON and R. GAMKLOU 93
Occlusion of the carotid artery using catheter with detachable balloon in pigs
B. LILIEQUIST, L. LAITINEN, Å. FORSSELL and S. WIRELL 100
Advances in the diagnosis of renal angiomyolipoma
D. E. APITZSCH, O. H. WEGENER, M. KAHLIL and R. SÖRENSEN 105
Placenta scintigraphy using markers of the uterine cervix and pelvic skeleton
E. HONORÉ and P. B. FREDERIKSEN 111
Quantity of tomographic blurring
K. ÅSTRAND, C.-G. HELANDER and S. REICHMANN 117
Energy imparted in roentgen diagnostic procedures—Results of two surveys during the periods 1958–1960 and 1974–1976 related to technical modifications
M. GUSTAFSSON 123
Diagnostically acceptable level of secondary radiation
S. REICHMANN and K.-G. STRID 145

Image enhancement by digital-analog filtration—I—Technical description of device
J. CEDERLUND, A. HEMMINGSSON, B. JUNG, H. LINDQVIST and H.-O. MOBERG . . . 154
Infantile hepatic haemangioendothelioma—Angiographic considerations
W. MORTENSSON and H. PETTERSSON 161
Ossification of femoral head in infancy—I—Normal standards
H. PETTERSSON and G. THEANDER 170
Ossification of femoral head in infancy—II—Ossification in infants treated for congenital dislocation
H. PETTERSSON and G. THEANDER 180
Bone maturation in children with chronic renal failure—Effect of 1 α-hydroxy vitamin D_3 and renal transplantation
A. JOHANNESEN, H. E. NIELSEN and B. E. HANSEN 193
Hip joint instability after the neonatal period—I—Value of measuring the acetabular angle
B. ALMBY and T. LÖNNERHOLM 200
Hip joint instability after the neonatal period—II—The acetabular growth potential
B. ALMBY, S. GREVSTEN and T. LÖNNERHOLM 213
Triphalangism and pseudotriphalangism of the thumb in children
G. THEANDER and N. CARSTAM 223
Radiology of the ear in mandibulo-facial dysostosis—Treacher-Collins syndrome
G. A. S. LLOYD and P. D. PHELPS 233
Spondylometaepiphyseal dysplasia in a mother and her child
H. PETTERSSON and K. O. NILSSON 241
Vesicoureteric reflux and pyelonephritis—Long time effect on area of renal parenchyma
I. WIKSTAD, A. APERIA, O. BROBERGER and K. EKENGREN 252
Massive congenital tricuspid insufficiency in the newborn
H. G. BOGREN, R. IKEDA, T. A. RIEMENSCHNEIDER, D. F. MERTEN and G. G. JANOS 261
Acute hemiplegia of childhood
H. P. HATTEN, E. E. KIM, F. H. DELAND and H. D. JAMESON 273
Computer tomography of the head in children—Technical aspects
U. ERASMIE and M. BERGSTRÖM 282
Labelling metrizamide (Amipaque) with iodine-125
H. L. SHARMA and A. G. SMITH 289
Ultrasound and clinical diagnosis of deep vein thrombosis of the leg
J. KIIL and J. C. MØLLER 292
Hepatobiliary scintigraphy with $^{99}Tc^{m}$-HIDA in patients with jaundice
E. ØSTER-JØRGENSEN, S. A. PEDERSEN and J. SCHOUBYE 299
Angiography and scintigraphy in patients with possible liver malignancy
C. HELLEKANT and E. CEDERQVIST 311
Palliative embolization of arterial renal tumour supply—Results in 10 cases
L. EKELUND, W. MÅNSSON, A. M. OLSSON and L. STIGSSON 323
Angiographic findings in adrenal masses
J. HOEVELS and L. EKELUND 337
Angiography of the testicular artery—IV—Magnification angiography in intrascrotal abnormalities
L. NORDMARK and G. NYBERG 353
Somatostatin in computer tomography of the abdomen
S. EFENDIĆ, O. MATTSSON and R. LUFT 369

Appearance of trabecular bone in the femoral neck (Singh index)—Relation to vertebral bone mass post mortem
A. Disen, H. M. Frey, R. Langholm and T. Vågslid 372
Facial bone scintigraphy—IV—Diagnosis of bone involvement of purulent sinuitis
H. F. Bergstedt, C. Carenfelt and M. G. Lind 379
Thin bony walls of the temporomandibular joint—Morphologic properties and tomographic reproduction
O. Eckerdal and N. Ahlqvist 385
Influence of radiation dose on image quality
S. Reichmann and K. Åstrand 393
Book review 400
Excretion of metrizamide (Amipaque) in humans following lumbar subarachnoid injection
P. Amundsen, H. Weber, L. Hoel and K. Golman 401
Role of hypertonicity in the endothelial injury caused by angiographic contrast media
R. Raininko 410
Amipaque in coeliac angiography
A. Skjennald 417
Transcatheter arterial embolization of experimental hepatic tumours in the rat
L. Stigsson, L. Ekelund, N. Jonsson and H. O. Sjögren 422
Transcatheter arterial embolisation in nasopharyngeal angiofibroma
P. Katsiotis, G. Tzoritzis and Ch. Karaminis 433
Blood inflow into vascular catheters following injection of saline solution and contrast medium—Model experiments
M. Dahlborn and U. Söderlund 439
Tendinography for diagnosing injuries to tendons and ligaments
S. Grevsten and K. Eriksson 447
Facial bone scintigraphy—V—Differentiation of purulent from non-purulent inflammation of the maxillary sinus
H. F. Bergstedt, C. Carenfelt and M. G. Lind 458
Relationship between clinical and radiographic findings in patients with mandibular pain or dysfunction
S. Kopp and B. Rockler 465
Bronchial angiography and intraarterial chemotherapy with mitomycin-C in bronchogenic carcinoma—Anatomy, technique, complications
C. Hellekant 478
Combined ventilation-perfusion scintigraphy for demonstration of pulmonary embolism
J. Kiil and F. Taagehøj Jensen 497
Postoperative deep vein thrombosis of the lower limb and prophylactic value of heparin evaluated by phlebography

Subject index to Volume 20 (1979) — Diagnosis

ROENTGEN DIAGNOSIS

Nervous system

Occlusion of carotid artery using catheter with detachable balloon in pigs 100
Acute hemiplegia of childhood 273
Excretion of metrizamide following lumbar subarachnoid injection 401
Tortuous filling defects at lumbar myelography 561
Contrast enhancement with time in gliomas—Stereotactic computer tomography . . 689
Computer tomography as primary radiologic procedure in acute subarachnoid hemorrhage 849

Digestive tract (incl. biliary tract and spleen)

Comparison between ERCP, angiography, surgery and microscopy in advanced pancreatitis 53
Clinical significance of duodenal diverticula and value of hypotonic duodenography . 93
Hepatobiliary scintigraphy with $^{99}Tc^{m}$-HIDA 299
Angiography and scintigraphy in patients with possible liver malignancy 311
Somatostatin in computer tomography of abdomen 369
Transcatheter arterial embolisation in nasopharyngeal angiofibroma 422
Venous structures of chest and abdomen at computer tomography 513
Colon of the rat 523
Experimental and clinical evaluation of cholangiography with xeroradiography . . . 587
Radiographic appearances in Crohn's disease—I 609
Hiatal incompetence and gastro-oesophageal reflux 626
Percutaneous transperitoneal fluoroscopy-guided fine-needle biopsy of lymph nodes . . 660
Arterial structures of chest and abdomen at computer tomography 703
Portal pressure correlated to visceral circulation times 737
Double contrast examination of stomach compared with endoscopy 762
Porto-systemic collaterals in cirrhosis of liver 865
Radiographic appearances in Crohn's disease—II 933

Heart and Vessels (incl. lymphatic vessels)

Thrombosis following phlebography with ionic and non-ionic contrast media 46
Comparison between ERCP, angiography, surgery and microscopy in advanced pancreatitis 53
Radiologic appearance of fat in interatrial septum of heart 61
Radiologic heart volume and subsequent mortality 65
Occlusion of carotid artery using catheter with detachable balloon in pigs 100
Infantile hepatic haemangioendothelioma 161
Massive congenital tricuspid insufficiency in newborns 261
Ultrasound and clinical diagnosis of deep vein thrombosis of leg 292
Angiography and scintigraphy in patients with possible liver malignancy 311

Palliative embolization of arterial renal tumour supply 323
Angiographic findings in adrenal masses 337
Angiography of the testicular artery—IV—Intrascrotal abnormalities 353
Role of hypertonicity in endothelial injury caused by contrast media 410
Amipaque in coeliac angiography 417
Transcatheter arterial embolization of experimental hepatic tumours 422
Transcatheter arterial embolisation in nasopharyngeal angiofibroma 433
Blood inflow into vascular catheters—Model experiments 439
Bronchial angiography and intraarterial chemotherapy with mitomycin-C in bronchogenic carcinoma 478
Postoperative deep vein thrombosis of the lower limb; prophylactic value of heparin . . 507
Venous structures of chest and abdomen at computer tomography 513
Scintigraphy of induced myocardial infarcts with $^{99}Tc^{m}$-gluconate 569
Pulmonary systemic flow ratios in atrial septal defect assessed by ventricular volume measurements 577
Complications at balloon catheter angiography 593
Transcatheter embolization in a haemophiliac with post-traumatic renal haemorrhage 606
Adrenal angiography in Sipple's syndrome 637
Ultrasound, angiography and fine needle aspiration biopsy of renal neoplasms . . . 649
Arterial structures of chest and abdomen at computer tomography 703
Tantalum labelling in vivo of cardiac ventricular chambers 721
Blood flow through arteriovenous fistulae 727
Portal pressure correlated to visceral circulation times 737
Angiography, ultrasound and fine-needle aspiration biopsy in evaluation of gynecologic tumors 779
Porto-systemic collaterals in cirrhosis of liver 865
Unilateral renal artery stenosis and hypertension—I—Angiography 878
Unilateral renal artery stenosis and hypertension—II—Correlation with blood pressure response after surgery 895
Percutaneous production of renal artery lesions 907
Arterial anatomy in the normal larynx and in laryngeal carcinoma 917

Lungs, Pleura, Mediastinum and Chest wall

Bronchial angiography and intraarterial chemotherapy with mitomycin-C in bronchogenic carcinoma 478
Combined ventilation-perfusion scintigraphy for demonstration of pulmonary embolism 497
Venous structures of chest and abdomen at computer tomography 513
Pulmonary systemic flow ratios in atrial septal defect assessed by ventricular volume measurements 577
Arterial structures of chest and abdomen at computer tomography 703
Mammary hamartomas. 712

Bones and Joints (incl. soft tissue)

Computer aided diagnosis of bone tumors 70
Facial bone scintigraphy—III—Effects of radiation therapy 75
Arthrography in dislocation of acromioclavicular joint 81
Arthrosis of the ankle evaluated on films in weight-bearing position 88

Ossification of femoral head in infancy—I—Normal standards 170
Ossification of femoral head in infancy—II—Ossification in infants with congenital dislocation 180
Bone maturation in children with chronic renal failure 193
Hip joint instability after neonatal period—I—Value of measuring acetabular angle . . 200
Hip joint instability after neonatal period—II—Acetabular growth potential . . . 213
Triphalangism and pseudotriphalangism of the thumb in children 223
Radiology of the ear in mandibulo-facial dysostosis 233
Spondylometaepiphyseal dysplasia in a mother and her child 241
Computer tomography of the head in children 282
Appearance of trabecular bone in femoral neck (Singh index) 372
Facial bone scintigraphy—IV—Bone involvement of purulent sinuitis 379
Thin bony walls of the temporomandibular joint—Morphology and tomographic reproduction 385
Tendinography for diagnosing injuries to tendons and ligaments 447
Facial bone scintigraphy—V—Differentiation of purulent from non-purulent inflammation of maxillary sinus 458
Relationship between clinical and radiographic findings in patients with mandibular pain 465
Calcified periarthritis at multiple sites including lumbar intervertebral discs 928
Bone mineral content in proximal tibia measured by computer tomography 957
Radiography in joint reconstruction with perichondrial grafts 967

Ear, Nose and Throat

Facial bone scintigraphy—III—Effects of radiation therapy 75
Radiology of the ear in mandibulo-facial dysostosis 233
Facial bone scintigraphy—IV—Bone involvement of purulent sinuitis 379
Transcatheter arterial embolisation in nasopharyngeal angiofibroma 433
Facial bone scintigraphy—V—Differentiaion of purulent from non-purulent inflammation of maxillary sinus 458
Radiologic assessment of laryngeal carcinoma 789
Arterial anatomy in the normal larynx and laryngeal carcinoma 917

Uro-genital system

Proteinuria following nephroangiography—IV—Comparison between ionic and non-ionic contrast media 13
Excretion of sodium and methylglucamine diatrizoate after unilateral ureteric stasis . . 19
Metrizamide in high-dose urography 39
Diagnosis of renal angiomyolipoma 105
Placenta scintigraphy 111
Bone maturation in children with chronic renal failure 193
Vesicoureteric reflux and pyelonephritis—Long time effect on renal parenchyma . . . 252
Palliative embolization of arterial renal tumour supply 323
Angiographic findings in adrenal masses 337
Angiography of the testicular artery—IV—Intrascrotal abnormalities 353
Transcatheter embolization in a haemophiliac with post-traumatic renal haemorrhage 606
Adrenal angiography in Sipple's syndrome 637

Ultrasound, angiography and fine needle aspiration biopsy of renal neoplasms . . . 649
Pseudotumor of renal pelvis caused by renal artery aneurysm 753
Angiography, ultrasound and fine-needle aspiration biopsy in evaluation of gynecologic tumors 779
Unilateral renal artery stenosis and hypertension—I—Angiography 878
Unilateral renal artery stenosis and hypertension—II—Correlation with blood pressure response after surgery 895
Percutaneous production of renal artery lesions 907
Excretion of sodium iothalamate at compression urography after dehydration 945

ISOTOPES

Facial bone scintigraphy—III—Effects of radiation therapy 75
Placenta scintigraphy. 111
Hepatobiliary scintigraphy with $^{99}Tc^{m}$-HIDA 299
Angiography and scintigraphy in patients with possible liver malignancy 311
Facial bone scintigraphy—IV—Bone involvement of purulent sinuitis 379
Facial bone scintigraphy—V—Differentiation of purulent from non-purulent inflammation of maxillary sinus 458
Combined ventilation-perfusion scintigraphy for demonstration of pulmonary embolism 497
Scintigraphy of induced myocardial infarcts with $^{99}Tc^{m}$-gluconate 569

COMPUTER TOMOGRAPHY

Computer tomography of the head in children 282
Venous structures of chest and abdomen at computer tomography 513
Arterial structures of chest and abdomen at computer tomography 703
Computer tomography as primary radiologic procedure in acute subarachnoid hemorrhage 849
Bone mineral content in proximal tibia measured by computer tomography 917

TECHNIQUE

Quantity of tomographic blurring 117
Energy imparted in roentgen diagnostic procedures. 123
Acceptable level of secondary radiation. 145
Image enhancement by digital-analog filtration—I—Technical description. 154
Computer tomography of the head in children. 282
Influence of radiation dose on image quality 393
Blood flow into vascular catheters—Model experiments. 439
Prototype ionographic imaging chamber 537
Visual evaluation of microscopic mottle 551
Experimental and clinical evaluation of cholangiography with xeroradiography . . . 587
Percutaneous transperitoneal fluoroscopy-guided fine-needle biopsy of lymph nodes . . 660
Image enhancement by digital-analog filtration—II—Tests of filters 665
Relevance of radiographic resolution capacity 673
Influence of microscopic mottle on definition of small image details 815
Optimised tomography for clinical use 827

Tomographic localization of motion axes 833
Image enhancement by digital-analog filtration—III—Experiments with bone metastases 841
Choice of screens in high-speed angiography 977

CONTRAST MEDIA

Effect of ionic and non-ionic contrast media on red cell deformability in vitro . . . 1
Proteinuria following nephroangiography—IV—Comparison between ionic and non-ionic contrast media 13
Excretion of sodium and methylglucamine diatrizoate after unilateral ureteric stasis . . 19
Volume of distribution of contrast media in blood 33
Metrizamide in high-dose urography 39
Thrombosis following phlebography with ionic and non-ionic contrast media . . . 46
Labelling metrizamide with ^{125}I 289
Excretion of metrizamide following lumbar subarachnoid injection 401
Role of hypertonicity in endothelial injury caused by contrast media 410
Amipaque in coeliac angiography 417
Effects of contrast media on water content of human erythrocytes 681
Influence of contrast media osmolality on isolated rabbit heart performance 769
Excretion of sodium iothalamate at compression urography after dehydration . . . 945

PEDIATRIC RADIOLOGY
